SPRING

2010

Season: SPRING 2010

When you won a trip to the Antarctic to visit a scientific station, you didn't think it would be so dangerous. The south pole ice cap is melting and has set free these creatures that had been sleeping for thousands of years... and now they are very hungry! Only you can stop them from destroying the planet. Will you be able to trap them in the ice? or will you end up frozen instead?
