Like every year, Alejandra and her family spend their summer holidays at the grandparents' house by the sea, along with all the cousins.

These are fantastic summer holidays, filled with fun and new experiences...but none like the one told by Alejandra on Turid, the dog's fairy godmother. Unexpectedly, they receive a special and unexpected visit through which they will live a short but intense experience that will change their lives, as well as their perception of the world of dogs, for good.

You are invited to enjoy this experience with them, and to understand better the needs of dogs. Suitable for all age groups, but especially for young boys and girls.
