Genre: Others

SPRING

2013

Season: Year 2013

I've spent the last ten years traveling the arc between Tripoli and Kabul, meeting the bombed, the prosecuted, the displaced... When war comes home, it knocks it down. It's always a peculiar sensation to travel into situations that others are trying to leave. The signposts along the journey aren't places, but people, and they are constantly on the move. And they have names.
