Norma, a 40-year-old married woman with a secret, meets Nacho, a young biologist, on a plane, where for the first time ever she is unfaithful to her husband. From this point on, a game of dependency and passion arises, which Nora turns into paintings for her next exhibition. 'There is nothing more deceitful than falling in love. And even more so when it happens to someone for the first time at the age of 40.' 'Faré tot el que tu vulguis' is a journey of an awakening to love, sensuality and sexuality, as experienced by a woman who is emotionally trapped in a conventional marriage. It's a novel where the protagonist learns to do what she wants, not what other people want her to do.
