Mika hasn't had much luck recently: unemployed and without future prospects in Spain, she decides to leave everything and look for work in Brazil, the blossoming country of new opportunities. Soon after landing in São Paulo, a sudden power cut leaves the city's 20 million inhabitants in the dark. Immediately, seven powerful spotlights that form a star on the roof of a skyscraper illuminates the outlying favelas. Meanwhile, social networks are flooded with a photograph of an unidentified body and the text '#FirstDay'. this is only the beginning of a chain of incredible events that will make Mika the key piece in an unimaginably huge plot, designed to put an end to current civilisation, rotten with inequality and corruption. Mika will face the conflict. How far would you go to change the world?
