Honour, vengeance and fate. The Legend of the Samurai lashed by the wind. 'They were times in which the ocean tanned nations and tempered men'. Year 1600, Dámaso Hernández, sub-lieutenant of the Tercios, is sailing to the Philippines, where he hopes to prosper so as to gain the hand of the girl Constanza. At the same time, a brutal civil war shakes Japan; during a long siege that will become legend, a few brave men defend Fushimi castle against an army of forty thousand. When there is no honourable way out remaining other than committing hara-kiri, the lord of that place tells one of his men to give in to that end and becomes a ronin to discover who has betrayed him. In the dark fate of men manipulated by powerful governors a vengeance will be forged that will lead to the startling expedition of Samurais that will end in Spain.
