AUTUMN

2010

Season: AUTUMN 2010

This book is a series of simple origami projects for open minds, from eight years and up. A series of folded paper figures waiting to be put together, played with and given as presents. With a little bit of patience, you can see it's easier than it looks, and when you've made the first figure you'll realise the game has just begun and you'll have lots of fun.
