Genre: Literature

AUTUMN

2010

Season: AUTUMN 2010

Cos peitos desenchufados is a new literary journey based on the poetic image, on its power and on the possibilities of words. Recycling, surgery and speech techniques make up a permeable and complex poetic 'I' that only finds its reason for being through the creation of a language of its own. The author traces a tango in the distance, poems for anarchists and hedonists of the word that fuse both extremes of the North Atlantic, creating new horizons in Galician.
