ISBN: 978-84-9917-015-2

Genre: Others

AUTUMN

2010

Season: AUTUMN 2010

Beyond the great literary and cinematic successes, find out about the history of vampires and their modern reincarnations.

Stephenie Meyer, Anne Rice and Charlaine Harris have all revived one of the most thrilling literary figures of all time: the vampire. Its origins are to be found in the dark regions of the human unconscious but it is its mythical past which now emerges to feed our fears and torture us more intensely, if possible, keeping alive our interest in those hypnotic figures.

Más allá del Crepúsculo offers a better understanding of the collection of historical, social, literary and even cinematic allusions which have moulded the figure of the vampire for years, and have been recorded in fiction, history books and films, speaking of black angels who, one day, denied death.
