A beautiful book written by prestigious, multi-awarded Galician writer Teresa Moure and illustrated by painter Leandro Lamas, one of the most unique artists in the current painting landscape of Galicia.

EU TAMÉN SON FONTE addresses, with a poetic approach, everything that goes through the heads of future mothers who, while expecting, see how their bodies change, nature vibrates differently and that "everything is round". All that told with deep lyricism, very appropriate to the type of story, and feelings, Teresa Moure wants to convey.
