SPRING

2016

Season: Year 2016

A furious old dog, trees with sinister branches, a wolf running away from two monsters and a white puppy lost in the woods. All these adventures and a few more surprises come together in this story that teaches us that your family is not always the one you were born into. Sometimes they are the people by your side who look after you, love you and accept you just as you are. Those are your true family.
