The lessons of a strict father, the Stuart king, sculpted a hard aggressive personality. He considered victory on the battlefield as a means rather than an end. His ultimate desire was the humiliation of his rival and his coronation as future king of all before him. He longed to become the new Alexander the Great. Edward, Prince of Marimor, is the hero of this captivating story, set in the Middle Ages, with its mix of harsh battles, betrayal and unrequited love. A tale about the importance of such concepts as humility, prudence and the prejudices which give rise to arrogance and avarice.

El reino de la humildad helps us to understand the origins and causes of economic crises and gives the key to the importance of ethical executive values.
