SPRING

2017

**Season:** Year 2017

Life has put aside something special for Alfonso, a young architect who has fallen apart after the loss of his father: a treasure hidden from the West for centuries. A trip to the desert shows him that death is not the end of being, but only a state of being. His own near-death experience later confirms this intuition. In a simple and entertaining way, Eduardo Gismera's fine penmanship demonstrates the author's deep understanding of the human soul.
