Genre: Literature

SPRING

2017

Season: Year 2017

Every journey unfolds across three dimensions: the inner journey, the journey through time and the journey through space. The spatial dimension fills the senses while the temporal one fuels the experience, but it is the inner journey that can truly change a human being. But can a human being change the meaning of the universe? The characters in the Book of Mistaken Journeys embark on an adventure in which fate guides them towards a general process of transformation. Through a disturbing narrative spiral, these stories leave us wondering about the complex world in which we live.
