Adelaida García Morales is one of the most mysterious figures in recent culture. The celebrity she gained through her books *The South* (adapted by Víctor Erice for the famous film of the same name) and *The Silence of the Sirens*, made the silence in which the author chose to immerse herself all the more ominous. When she died in 2014 her death went largely ignored. *The Last Days of Adelaida García Morales* is a fictional work of the days preceding her death. Shortly before, she had gone to the local council to ask for 50€ to visit her son in Madrid, and inspired by this fact, Navarro's novel intertwines two stories to create an intense and singular narrative that touches on false documentary.
