Read report: [Relatos Faunescos \(Faunish Stories\)](#) [3]

'Relatos Faunescos' ('Fawnish Stories') is a collection of stories that all feature animals, whether they are the protagonists of the story, because an animal is the key to the dénouement, or simply because the protagonist looks or behaves like an animal. On this basis, each story focuses on a specific animal: a sea bream, a fly, a camel... A book in which Fernando Mansilla not only shows his virtuosity when it comes to writing, but also his love for the wilder side of life. 'Fernando Mansilla comes to the rescue of urban culture' (El País). 'A real gem... it is a treat to savour Mansilla's unusual offering in the current national climate'. (Ángel Carmona, RNE3).
