As you turn the pages of this original book, you will discover the strangest animals on earth. Although they may seem fake, aliens from other planets, they all live among us, and hopefully you will be able to observe them someday in nature, but... Attention! This book is also a game: in every category of animals, an imaginary or fictional animal is hidden between the real ones. An animal that does not exist and that you will have to unmask. Julieta Lobo, the eminent zoodetective, will accompany you on this journey through the animal kingdom. She will teach you animal curiosities and will help you discover the animals invented in each category. Enjoy and learn!
