SPRING

2021

Season: Year 2021

A folder has been found with two hundred typed pages signed by the writer Teseo Yedra. Three decades after the author sent it to her agent, and with no record of it ever being received, experts on her writing have no doubts that this was the highly anticipated new novel of the author, who has just won a great literary award. Now the appearance of the text proves that the novel was sent on the eve of her thirty-third birthday.
