Desperation is growing in the magical kingdom of Lendataria. The moon doesn't shine any more: its light has gone out and nobody knows why. "Hang on, we need to fix this," says counsellor Amuletus to himself, and he visits the king, asking him to offer a reward to anyone who can solve the problem. "Someone light a candle! Someone set a torch alight! Bring a couple of wizards - or a hundred!" By order of King Migajo III, the message goes out that whoever can give the moon back its shine will be rewarded with a hundred gold coins and three thousand chocolate ones - among other prizes. There are no Prince Charmings here or noblemen riding out to defend the kingdom and no badly drawn damsel cobbled together from current trends - on the other hand there may be an unknown heroine who finds the solution or sheds light on this mystery.
