Spanish Retail price: 101.90€

ISBN: 9788496344266

Genre: Others

SPRING

2011

Season: SPRING 2011

This manual is an in-depth synthesis of the present state of knowledge in exotic animal clinics, giving all the basic information necessary for achieving an advanced level in daily practice.

In addition to its theoretical and academic aspects, the manual includes practical recommendations based on the clinical experience of the authors, aimed at offering immediate solutions to the problems vets face in daily practice.

The work covers a broad range of species of small mammals, birds and reptiles, including those most commonly seen in exotic animal consulting rooms.
