SPRING

2011

Season: SPRING 2011

A 21st century archeological dig. A 9th century Viking population. Over a thousand years separate the two worlds, and yet there is a connection linking them. This is the story of two women whose destinies cross, despite the years that separate them. Maybe because there is only one way to tell the story of the women who, accused of being witches of visionaries, have built our world and watched over life.
