Additional information **Press reviews:**

José Maria Merino at the book presentation:

I have found it a wonderful novel, which I have read with real pleasure, I think it is superbly written. On many occasions introspection, the game will come from the hand of the psychoanalyst, but I do not believe in that, I think it is the writer's hand. The psychoanalyst feeds the writer and gives him a perspective. That way to round off the characters, to enter into them, completing their thoughts, their complexity, I believe it's wonderful. And of course, everyone has recommended the novel, I am sure you will read it with pleasure and have a wonderful time
