Anabel is a very special witch because she was born the day the Moon kissed the Sun. Because of it, she is the only witch who can fall in love. To prevent Anabel from falling in love, his aunt Filipa kept her as a prisoner for years until a good day Anabel manages to escape. She travels by a ship to a big city in another continent. She will begin a new life working as a model and falls in love with Antonio, who also loves her. Her best friend, Ximena de las Lagartijas, finally finds Anabel, but when she learns about her boyfriend becomes green with envy, and decides to steal Antonio's love for Anabel. She gives him the love potion, which turns out to be very effective: Antonio falls in love with Ximena and forgets Anabel.

Anabel will have to fight hard to recover Antonio's love and, finally, to confess to him she is a witch... Will love finally triumph?
