This guide of the Way of St James includes the routes known by pilgrims as the French Way, from Roncesvalles and the Aragonese Way, from Somport. It also includes the four stages from Santiago to Cape Fisterra, and the stage of Saint Jean Pied de Port. The book starts with a documented introduction, with several chapters about the history of the pilgrimage, the Ways today, shelters, equipment, physical preparation and some tips that may be useful to go along the route.

40 stages are reviewed, and each includes: two digital maps, a level graph, a stage summary, distances, services available at each town, a synthesis of the cultural aspects, a detailed description of the course, information offices, a list of hostels and other accommodation with their features.
