A compilation of stories encompassing fantasy, costumbrismo, social commentary, futurism and humour. An alternative way of conceiving and popularising the ninth art.

These short stories enable any subject to be tackled in an immediate way, and provide a great laboratory in which to give free rein to experimentation. In the era of Google, they also provide a vehicle for the reader's instant gratification, using formats that as are as attractive as they are distinctive: comic, short or story. The creators of this book know their art.

Barcelona TM comprises 27 tales set against the backdrop of the Catalan capital, which accommodates and inspires a large handful of friends, all of them illustrators and scriptwriters resident in Barcelona.
