**Genre:** Literature

AUTUMN

2011

**Season:** AUTUMN 2011

Sometimes life and literature go hand in hand. This is what happens in this book, in which Xulia Alonso relates the most important story of her life: that of her love for Nico and the experience of losing him.

During the 80s and 90s, many young people simultaneously discovered love and drugs. The consequences of this experience marked them forever, some in dramatic ways. This book is a re-encounter with that time, its presence projected into the future. A future that can no longer be perfect, but which is nevertheless encouraging.
