Genre: Others

AUTUMN

2011

Season: AUTUMN 2011

Slang, neologisms, colloquial usage, idioms, text-speak, Internet vocabulary etc... This entertaining dictionary will help you to learn a language you don't yet know, which isn't taught in language classes and does not appear in conventional dictionaries, because the items are either taboo, politically incorrect or new inventions. Its bi-directional structure makes it ideal for English speakers who want to discover a more authentic, up-to-date Spanish or vice versa.
