This is the compilation of different housing projects in Spain. The detached houses volume includes typologies of row housing, between dividing walls and separate houses. The information has been thoroughly processed, especially in terms of format. Being true to the structure, each project is presented with briefs from the authors, sketches, models, site plans, technical data, plans, elevations and sections accompanied by professional photographic reports.

Excerpt of Levante, November 27th 2005. (Newspaper of the Valencian Community).

NEW VALENCIAN HOUSING. More than a dozen projects of young Valencian architects have been chosen by Editorial Pencil, specialized both on the field of detached houses and on social buildings. [...]. Beyond Calatrava and his sight, a new generation of young architects, controled by modern rigorism, try to make their way in the always difficult but unavoidable
