SPRING

2012

Season: SPRING 2012

Second volume in the I-Spy collection. New collection of drawings that put children's observational skills to the test. All the pictures feature the Triplets and their friends in various situations: A street at Christmas, a costumed dance, a play, a rock concert, a day out at the zoo...

The book contains richly detailed illustrations that will help children to focus their attention, enjoy the pictures, recognise situations and learn vocabulary.

It is also a book they can play with on their own or in a group, which helps develop concentration skills and also with social interaction.
