Season: SPRING 2012

There are moments in life when sadness overcomes you, wiping the smile from your face; melancholy makes you turn pale, your vision is blurred by a grey cloud, and you don't know why.

Carmesina, the girl who awakened the forgotten colours, is now a few years older, with some of her hopes dashed, and she is also beginning to languish. Why is this happening to her? How can she make herself pick up her paintbrushes again and, more importantly, live life to the full? Someone who watches attentively over Carmesina's life - and that of all of us - is about to pay her a visit and invite her into the world of stories and imagination. Are you ready for the journey?

'La inspiración dormida. Regreso a los colores olvidados' is an illustrated novel which tells the story of a journey in search of the inspiration to dream, to imagine, in short, to live.
